

S&TA River Fly Abundance Study for '04, '03, '02 Seasons - The Nationwide Continuation of the Millennium Fly Study

Please fill in for each river or stream you have fished regularly or recently (Incentive - regional draws for fishing!)

Report what you feel capable of reporting on. If it is for one season & just for "Fly in General", it will still be vital data. The simplest data is still valuable. The earlier phases of this study (pre-war to 2001) have produced tremendously useful data, and have been widely published and used to guide Government policy. By popular demand, we are continuing this survey across the whole country to give all regions an input into research and action for river fly abundance.

Please write your **Name:** _____ **Angler/Keeper/Owner/Club Official** (circle as appropriate)

Could we have your **Telephone no** in case we need to confer with you?: _____ And your house name/no./road & postcode? (write in below)

Address: _____ **Post Code:** _____

WRITE IN HERE THE RIVER, and if possible the stretch /location you are referring to: _____ Further rivers - copy this form & attach

HOW GOOD WAS THE FLY? Tell us for '04, then, if you can, for '03 & '02. To produce comparable data, **please write one the following six codes in a box below** for each season & fly you recall/recorded and feel capable responding to: **GHF**=Good Hatches Frequently; **GHI**=Good Hatches Infrequently; **SHF**=Sparse Hatches Frequently; **SHI**=Sparse Hatches Infrequently; **VLF**=Very Little Fly/ones & twos only (but present); **ABS**=Absent

Year/ Season	Fly in General	Small Upwings	Mayfly eg Danica	Sedge/not Grannom	Grannom	Stoneflies	Lge Dark Olive	Medium Olive	BlueWing- ed Olive	Iron Blue	Spurwing/ P.Watery	Small Dk Olive	March Brown	Olive Upright
2004														
2003														
2002														

And how many times a season have you been on the above river recently?

Please tick:	<5 times	6--10	11--15	16--20	21--25	26--30	30+

Are you working - please tick:

mainly from memory?	
partly from written records?	
mainly from written records?	

And, in 2004, roughly how many trout did you see rising on the AVERAGE day?

An overall impression is all we are looking for here

		None	1 or 2	3 to 5	6 to 10	11 to 15	16 to 20	21 to 30	31 to 50	over 50
Please tick one box for each season:	in April / May / up to Mayfly?									
	in Mayfly time / late May & early June?									
	after Mayfly / late June / July / August?									
	In September / October?									

We thank you very much indeed for your time and trouble in providing this information (in confidence) to the S&TA River Fly Study team.

Future current year questionnaires will be distributed at the season's end. For results or assistance go to www.salmon-trout.org or call S&TA HQ on 0207283 5838.

Please send your completed questionnaire direct to: Carmel Jorgensen, S&TA, Fishmongers' Hall, London EC4R 9EL - regional fishing draw entry is automatic.
